PROFESSIONAL SUMMARY

Cloud and Database professional with hands-on internship experience in Oracle Database Administration, AWS infrastructure, and DevOps automation. Currently working in a production Oracle environment at Doyensys, with self-built projects involving CI/CD pipelines, containerised deployments, and three-tier AWS architectures. AWS Certified Cloud Practitioner and active participant in Chennai's tech community. Seeking a full-time role in Cloud Engineering, DevOps, or Oracle DBA.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, VPC, IAM, RDS, Security Groups), Oracle Cloud Infrastructure (OCI)

DevOps & Automation: Docker, Docker Compose, Terraform, GitHub Actions, Nginx, Gunicorn

Database Administration: Oracle 19c, Oracle 23ai, RMAN Backup & Recovery, Tablespace Management, MySQL

Programming & Scripting: Python, SQL, Bash / Shell Scripting

Networking: TCP/IP, DNS, Subnetting, VPC Networking, Security Groups

OS & Tools: Linux (Ubuntu, Amazon Linux), Windows, Git, GitHub, SSH, PuTTY

Languages Known: Tamil (Native), English (Professional)

PROFESSIONAL EXPERIENCE

Oracle DBA Intern

February 2026 - Present

Doyensys Pvt Ltd, Chennai

- Administer Oracle Database 19c and 23ai production instances — startup/shutdown, tablespace management, and session monitoring to maintain database availability.
- Handle L1 support tickets end-to-end, triaging and escalating critical database and infrastructure incidents in a live production environment.
- Monitor RMAN backup jobs, validate backup sets, and support database recovery operations to ensure data integrity and business continuity.
- Manage Oracle user accounts, roles, and privileges; conduct daily health checks and generate monitoring reports via OCI dashboards.

Data Science Intern

June 2025 - August 2025

Vcodez, Remote

- Gained exposure to data analysis workflows and Python-based data processing techniques.
- Developed foundational understanding of IT industry practices and analytics roles in business environments.

PROJECTS

DevOps Full-Stack Deployment - React + Django on AWS

December 2024

github.com/kuralarasansjk

- Deployed a containerised React (Vite) and Django application on AWS EC2 using Docker, Docker Compose, Nginx as reverse proxy, and Gunicorn (WSGI) with multi-stage builds.
- Provisioned infrastructure with Terraform (IaC) and built a GitHub Actions CI/CD pipeline for automated deployment on every push to main.
- Diagnosed and resolved Docker Compose ContainerConfig failures, Node.js/TypeScript version conflicts, and Nginx API routing errors.

Cloud-Based E-Learning Platform - Three-Tier Architecture on AWS

October 2024

- Designed and deployed a three-tier web application on AWS, separating presentation, application, and database layers for scalability and fault isolation.
- Hosted the application tier on AWS EC2 (Amazon Linux) to manage backend API processing and frontend-to-database communication.
- Configured Amazon RDS (MySQL) in a private subnet with Security Group rules restricting DB access to the application server only.

Technical Article - Oracle 19c Installation on Oracle Linux 7.9

March 2026

Published on Medium

- Authored a step-by-step SOP-style guide covering environment prep, Oracle user/directory setup, installer configuration, and post-installation verification.
- Article received 1,500+ impressions on LinkedIn, demonstrating ability to document and communicate technical processes clearly.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner (CLF-C02)** - Amazon Web Services
- **AWS re/Start Graduate** - Amazon Web Services
- **SQL (Basic)** - HackerRank
- **SQL Mastery with MySQL** - LearnZ Development Hub

COMMUNITY & EVENTS

- **AWS User Group Chennai Meetup** (November 2025) - Sessions on production AI agents with Amazon Bedrock, database encryption on AWS, and observability tooling.
- **OpenSearch Community Meetup, Chennai** (November 2025) - Talks on Vector DB, hybrid retrieval (BM25 + vector search), and Elasticsearch-to-OpenSearch migration.
- **Microsoft Azure Developer Community - AI Upskilling in Tech** (January 2026) - Session at Microsoft Chennai office on distributed systems with Ray (Python) and result-driven engineering.

EDUCATION

AWS re/Start Programme - TNSDC & Cultus Education

August 2025 - November 2025

Government-backed cloud training — AWS fundamentals, Linux, Python, SQL, and hands-on EC2 labs.

Bachelor of Engineering (B.E.) - Agricultural Engineering

2021 - 2025

SRM Valliammai Engineering College, Chennai | CGPA: **7.16 / 10.0**

Higher Secondary Certificate (HSC / Class XII)

2021

St. Joseph's Matriculation Higher Secondary School, Tamil Nadu | **82.5%**

Secondary School Leaving Certificate (SSLC / Class X)

2019

St. Joseph's Matriculation Higher Secondary School, Tamil Nadu | **81.8%**
